- Early Interceptive Treatment (Phase 1)
  - Arch development
  - Serial extraction
  - Pre-orthopedic strategies
  - Phase 1 treatment strategies and appliance selection
- Cephalometric Projection
  - "Targeting" the treatment goals
- Orthodontic Treatment Planning
  - Determining treatment objectives
  - Extraction/non-extraction decisions
- Temporomandibular Joint Function/Dysfunction
  - Orthopedics, orthodontics and the temporomandibular joint

- Functional/Orthopedic Treatment (Phase 2): Comparison of functional and orthopedic modalities
  - Extra-oral traction
  - Twin Block
  - Palatal expansion/protraction
- · Differential Appliance Selection and Management

#### • Comprehensive Treatment (Phase 3)

- The "Six Keys" to occlusion
- The "Straight-wire" edgewise appliance
- The "Biodynamic" appliance system
- Basic biomechanical principles
- Archwires: Their properties and use
- Comprehensive Treatment (Phase 3): Mechanics Planning (Cases will be presented demonstrating all of the following principles of mechanics planning with posttreatment analysis of all treatment results
  - Fixed appliance selection
  - Archwire selection/utilization
  - · Finishing procedures
- Retention and Retention Planning
  - · Adjunctive retention procedures

- Orthodontic Technique
  - Enamel bonding lecture, demonstration, typodont exercise
  - Biomechanics

 Early Interception Appliances: The fabrication, adjustment and utilization of fixed and removable appliances used in the interceptive and decompensating phases of treatment

## Maxillary Schwarz plate

- Maxillary 3D transpalatal arch
- Lingual arch (Wilson 3D Quadaction mandibular appliance)
- "Porter" type arch (Wilson 3D multi-action palatal appliance)
- Functional Orthopedic Appliances: The fabrication, adjustment and utilization of functional/orthopedic appliances
  - Twin Block
  - Twin Block/Headgear combination
  - Palatal expander
- Finishing Appliances (Tooth Positioner)

"Comprehensive Orthodontics" will permit the motivated dentist to diagnose and develop a treatment plan for any and all orthodontic problems in his or her practice, while choosing to treat 60% - 70% of the reasonably routine cases, and happily referring the others to orthodontic specialists.

### PRE-TREATMENT

#### POST-TREATMENT

# AFTER COMPLETING "COMPREHENSIVE ORTHODONTICS," PARTICIPANTS HAVE REALIZED:

### 1. They could better serve their patients' needs

- "I can better inform my patients of options and alternative possibilities"
- "Even if I choose not to do the treatment myself, I can provide more timely recognition and referral"

### 2. Their skill and service improved

- "Sharpens all dental skills"
- "Enhances restorative and fixed prosthetic procedures"
- "Truly esthetic dentistry"

#### . Orthodontics provided practice growth and maintenance

- "Whole families have followed orthodontic patients into our practice"
- "I have developed long-term service relationships with former orthodontic patients"
- "Have become patients for life"
- "Appreciate the value of dental treatment"

#### Their bottom line improved

• "It is very profitable"

4.

- "Expands treatment capabilities and improves the bottom line"
- "Helps make cash flow more stable and predictable"
- "Significant additional revenue"
- "Minimal doctor time"
- "Highly profitable due to delegation of procedures"

# SESSION I:

December 10, 11, 12 & 13, 2009 (THURSDAY, FRIDAY, SATURDAY & SUNDAY)

# SESSION II:

January 28, 29, 30 & 31, 2010 (THURSDAY, FRIDAY, SATURDAY & SUNDAY)

# THE GOAL OF THIS COURSE IS TO:

- Present the state of the art and science of orthodontics, as it is taught in today's university programs and practiced by today's specialists
- Provide you with an education that goes way beyond "training." You will understand orthodontics, and be able to "think," rather than "act," first
- Teach you to use protocols and procedures clearly supported by clinical and basic science data, so that within the limits of biological certainty, responses to treatment will be predictable
- Guide you to a comfort and confidence level supported by knowledge rather than opinion, as you select and choose to treat the kinds of orthodontic problems which should be treated by a non-specialist
- Offer you the opportunity to earn while learning
- Help you to intelligently and happily refer those cases which require the experience and skills of the orthodontic specialist
- Offer optional extended support programs (Advanced Study Groups and Clinical Programs) built upon the educational foundation provided in "Comprehensive Orthodontics"

# **SCHEDULE**

Thursdays	9:00 a.m. — 6:00 p.m.
Fridays	9:00 a.m. — 6:00 p.m.
Saturdays	9:00 a.m. — 6:00 p.m.
Sundays	8:00 a.m. — 12:00 p.m.

# **TUITION**

Tuition for the entire eight-day "*Comprehensive Orthodontics*" program is \$7,995.00. A deposit of \$1,495.00 is required to reserve your space in this program, and the remaining \$6,500.00 will be due in two equal installments of \$3,250 by check or automatically billed to the credit card on file on the following dates:

Payment 1: December 9, 2009 Payment 2: January 27, 2010 18 MONTH NO INTEREST FINANCING AVAILABLE

# **REGISTRATION OPTIONS**

By Phone: 305-934-8104 By Fax: 561-909-6159 By Mail: South Beach Dental Institute 325 Clematis Street Sutie 315 West Palm Beach, FL 33401

# **COURSE LOCATION**

South Beach Dental Institute 1830 NE 153rd Street North Miami Beach, FL 33162

# **RECOMMENDED ACCOMMODATIONS**

The Fairmont Turnberry Isle Resort & Club 19999 West Country Club Drive Miami, Fl 33180 Phone: 305-932-6200 (please mention South Beach Dental Institute for discounted rates)

DR. RICHARD A. LITT received his D.D.S. degree in 1965 from the University of Detroit, and his Masters degree and certificate in Orthodontics from Northwestern University in 1969. Dr. Litt was Professor and Chairman of the Department of Orthodontics at the University of Detroit from 1969-80, and Clinical Professor and Director of Postdoctoral Ortho-

dontics at the University of California, San Francisco from 1980-86.

Having received many accolades and awards, Dr. Litt has published many articles and is recognized as one of the most dynamic educators and clinicians in orthodontic education today. Dr. Litt has served as Clinical Director of Orthodontics for the Pediatric Dental Residency of Children's Hospital of Michigan, and he currently maintains orthodontic specialty practices in Southfield and Livonia, Michigan.

#### **TESTIMONIALS**

"After two years of graduate training in pediatric dentistry and several years of continuing orthodontic education, I finally found a program that truly teaches orthodontics. As a direct result of this course, our practice adds dozens of new orthodontic patients every year."

- Dr. Michael O'Riordan (Pediatric Dentist), Warren, MI

"Having had the privilege of attending Dr. Litt's program, I can say it is a must for the dentist incorporating orthodontics into his clinical practice. Dr. Litt provides more than training. It is an education. The participant will come to understand not only the 'how to,' but also the rationale and basis for the countless decisions one must make in clinical practice. He is an outstanding lecturer and clinician. Simply the best program available."

> Dr. Jean-Noël Lavallée, Director, International Dental Institute (IDI), Montréal, QC

"This program is the finest and most comprehensive course I have ever attended. It will allow any dentist — willing to work and study — to successfully deliver orthodontic care and greatly expand his general practice." — Dr. James Prittinen (General Practitioner), Virginia, MN

"I believe this course to be at the forefront of technology and practice and to be far superior to any other current orthodontic post-graduate course available today. Dr. Litt's comprehensive Biodynamic System has helped me to be completely confident in bringing quality orthodontic care to my patients."

- Dr. Ralph T. Yoshida (Pediatric Dentist), San Jose, CA

"Given the opportunity to learn orthodontics from a former university professor and director of two graduate programs, I didn't have to think twice. I have gained the necessary understanding and background so often missing in orther programs... a truly well-rounded, dynamic course." — Dr. Earl Bogrow (General Practitioner), Southfield, MI

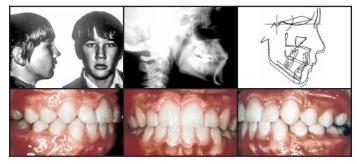

"As a general dentist for 21 years in a family-oriented practice, I have been doing fixed/functional orthodontics for 17 years. Over these years, I have taken practically every orthodontic course available to the general dentist from Halifax, Nova Scotia to San Diego, California. "Comprehensive Orthodontics" is the first course to present orthodontic diagnosis, treatment planning and mechanics in such a logical and complete manner that any general dentist should be able to approach orthodontic treatment with confidence.

- Dr. Hal Carmichael (General Practitioner), Bridgewater, NS
